- Keeping Safe When Selling Your Property
- Keeping Safe Travelling To and From School
- Keeping Safe - Children & Young People at Halloween
- Personal Alarms: How do I choose?

Suzy Lamplugh Trust

Suzy Lamplugh Trust was founded in 1986 following the disappearance of the young estate agent. The aim of the Trust is to raise awareness of the importance of personal safety and to help people to avoid violence and aggression and live safer, more confident lives.

Keeping Safe

ON THE STREETS

**NEIGHBOURHOOD
WATCH**

Safety on the Streets

If you are at all worried, try and stay near a group of people.

Avoid passing stationary cars with their engines running and people sitting in them.

Try to keep both hands free and don't walk with your hands in your pockets.

Try to use well-lit, busy streets and use the route you know best

Whenever possible, walk facing on coming traffic to avoid kerb crawlers.

If you do have to walk in the same direction as the traffic and a vehicle pulls up suddenly alongside you, turn and walk or run in the other direction - you can turn much faster than a car.

Keep your mind on your surroundings – remember if you are chatting on your mobile phone or wearing a personal stereo, you will not hear trouble approaching.

Be extra careful when using cashpoint machines. Make sure nobody is hovering nearby and do not count your money in the middle of the street.

If you think you are being followed, trust your instincts and take action. As confidently as you can, cross the road, turning to see who

is behind you. If you are still being followed, keep moving. Make for a busy area and tell people what is happening. If necessary, call the police.

Beware of someone who warns you of the danger of walking alone and then offers to accompany you. This is a ploy some attackers have been known to use.

Never accept a lift from a stranger or someone you don't know very well, even if you are wet, tired or running late.

We all have the right to wear any clothes we wish, we all have the right to wear any clothes we wish, but it's worth remembering that you can help to reduce the risks by wearing clothes you can move in easily and shoes that you can run in.

Try not to keep all your valuables in one place. Instead place valuables such as wallets in an inside pocket.

Consider carrying a personal safety alarm, which can be used to shock and disorientate an attacker giving you vital seconds to get away.

It takes three things for a violent or aggressive incident to happen - a victim, a perpetrator and an opportunity. By taking some suitable safety precautions, you can reduce the opportunities and therefore the risk of becoming a victim.

Here are a few tips on how to reduce the risks when you are out and about on the streets.

Plan ahead. Before you go out, think about how you are going to get home, e.g. Can you travel home with a friend? What time does the last bus/train leave?

Avoid danger spots like quiet or badly-lit alleyways, subways or isolated car parks. Walk down the middle of the pavement if the street is deserted.

If you do have to pass danger spots, think about what you would do if you felt threatened. Consider heading for a public place. Somewhere you know there will be other people, for example a garage or shop.
